

Mary Fieser Postdoctoral Fellowship Program Application Process

Application packages must include the following:

- a Curriculum Vitae (including publication list).
- a statement of not more than **two** pages presenting the applicant's research interests and experiences, future career goals, and a discussion of how the applicant will contribute to academic diversity in CCB.
- Three letters of recommendation are also required, one of these contributed by a Faculty Sponsor in the Department of Chemistry and Chemical Biology, Harvard University. All areas of research in CCB are eligible for support.
- Applicants should contact potential Faculty Sponsors directly with initial inquiries. For purposes of programmatic evaluation, it is requested that initial letters of inquiry to potential CCB Faculty Sponsors also be included with the application package via the application website and include the CV and applicant statement discussed above.

Information on faculty research and contact information is available at:
