

We are located in the Department of Chemistry and Chemical Biology at 12 Oxford Street, about a five-minute walk from the train station.

Directions from the Harvard Square MBTA Stop on the Red Line

1. There are two exits from this station. Exit via the turnstiles leading to Harvard Yard/Church Street. After the turnstiles, turn left and ascend via the exit labeled Harvard Yard (not the Church St. exit on the right).
2. Once above ground, go straight ~20-30 feet. Enter Harvard Yard through a gate on the right.
3. Facing forward, angle yourself 45 degrees to the left and follow the asphalt pathway.
4. Pass through another gate, exiting the Yard. You are now facing the Science Center. Continue walking in the general direction of that original 45-degree angle, keeping the Science Center on your left. You will see a large Victorian Gothic brick structure—Memorial Hall—on your right. Stay on the pathway running between the Science Center and Memorial Hall.
5. You will arrive at a street with a right-angle bend. This is actually the join of two streets. Oxford Street goes to the left, along the Science Center. Cross at this corner, and walk along Oxford Street.
6. You will see the Science Center on your left and the red-brick Lowell Lecture Hall on your right. 12 Oxford Street is the second building on your right. It is a brick building with columns. If you see an open lawn area on your right, you've gone just a bit too far.
7. When you enter the building, you will be in the main lobby of the Mallinckrodt building with a staircase directly in front and a hallway running to the left and right. Turn left and follow the hallway for 20-25 yards. Turn right and continue to follow the hallway for another 20-25 yards until you pass through a set of double doors into the Naito Laboratory.
8. Professor Kahne's office is the fifth door on the left, Room 104.

From the Mass. Turnpike (I-90) Eastbound

1. Leave Mass Turnpike at Exit 18. Bear right after the tollbooth at the end of the exit ramp.

2. Turn left after the lights and before the bridge onto Storrow Drive. You'll be heading west.
 3. Continue on Storrow Drive ~ 0.5 mile, then take the Cambridge/Allston exit. Turn right at end of ramp onto John F. Kennedy Street. Go over bridge and head into Harvard Square. Keep going straight, through the middle of Harvard Square.
 4. As you pass alongside Harvard Yard, stay in the left lane and bear left at the fork, then keep to the right.
 5. Staying right, go through light and blend onto Massachusetts Avenue (Mass Ave).
 6. Go through one light. At the 2nd light, turn right onto Everett Street.
 7. The next light is the intersection with Oxford Street. Turn right onto Oxford Street and look for on-street parking along Oxford Street. (As you probably know, not much is available.)
 8. 12 Oxford Street is on the left, a brick building with columns. If you get to a sharp left bend in the road, you've gone just a bit too far.
 9. When you enter the building, you will be in the main lobby of the Mallinckrodt building with a staircase directly in front and a hallway running to the left and right. Turn left and follow the hallway for 20-25 yards. Turn right and continue to follow the hallway for another 20-25 yards until you pass through a set of double doors into the Naito Laboratory.
 10. Professor Kahne's office is the fifth door on the left, Room 104.

From I-93 Northbound

1. Leave I-93 Northbound at EXIT 26 (Cambridge/Storrow Drive).
2. Keep LEFT at end of ramp and take underpass to STORROW DRIVE.
3. Continue on Storrow Drive ~ 4 miles to Cambridge/Allston.
4. Take the CAMBRIDGE/ALLSTON exit, turning right at end of ramp onto JOHN F. KENNEDY Street. Go over bridge and head into Harvard Square. Keep going straight, through the middle of Harvard Square.

5. As you pass alongside Harvard Yard, stay in the LEFT LANE and bear LEFT at the fork, then keep to the RIGHT.
 6. Staying RIGHT, go through light and blend onto MASS. Avenue.
 7. The next light is the intersection with Oxford Street. Turn right onto Oxford Street and look for on-street parking along Oxford Street. (As you probably know, not much is available.)
 8. 12 Oxford Street is on the left, a brick building with columns. If you get to a sharp left bend in the road, you've gone just a bit too far.
 9. When you enter the building, you will be in the main lobby of the Mallinckrodt building with a staircase directly in front and a hallway running to the left and right. Turn left and follow the hallway for 20-25 yards. Turn right and continue to follow the hallway for another 20-25 yards until you pass through a set of double doors into the Naito Laboratory.
 10. Professor Kahne's office is the fifth door on the left, Room 104.

If Traveling by Taxi

The address to give the driver is 12 Oxford Street, Cambridge.

This address comprises several distinct buildings connected to each other. The Kahne lab is located on the first floor of the Naito Lab.

When you enter the building, you will be in the main lobby of the Mallinckrodt building with a staircase directly in front and a hallway running to the left and right. Turn left and follow the hallway for 20-25 yards. Turn right and continue to follow the hallway for another 20-25 yards until you pass through a set of double doors into the Naito Laboratory.

Professor Kahne's office is the fifth door on the left, Room 104.
